## **Chemical and Heavy Metal Toxicity 2009 February 27-March 1, 2009 Taught by Dietrich Klinghardt MD, Ph.D. and guest speakers including Boyd Haley, Ph.D. Hyatt Regency, Bellevue, WA**

**Dietrich Klinghardt MD PhD** was one of the first practitioners in the US to include aggressive detoxification in his medical treatment strategies. Today many studies point in the same direction: chemical and heavy metal toxicity is at the core of many medical issues (cancer, neurological illnesses, fatigue, MS and others). Dr. Klinghardt has pioneered many diagnostic and detoxification strategies and is considered one of the worldwide leading authorities in this rapidly advancing field.

In this seminar we will focus on the solutions: What are the relevant diagnostic tests and strategies available to measure the body burden of chemicals and metals? Which detoxification strategies are safe, effective, reliable and affordable? What can we do to change and improve the future of our lives as we hope to live it? Speakers include Boyd Haley, Ph.D. and Mark Schauss. *Join us to make a difference and learn to employ safe detoxification protocols for yourself, your family and your patients.*

**Conference fee: \$675**

**Student Fee: \$425. More than one person from the same office: \$100 discount per subsequent person.**

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until February 8, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web: <http://bellevue.hyatt.com/groupbooking/belle2009klin>.

***Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.***

**Fundamentals of ART I, Feb. 27, 9 am – 12 pm**  
**Taught by Andreanna Rainville, RN**

Have you always wondered what Autonomic Response Testing was? This is a 3-hour class designed to introduce you to the fundamentals of ART.

ART is different from other forms of muscle testing in that it uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body. ART often finds things that are missed with traditional kinesiology. ART practitioners in general also have the ability to test for a wider variety of root causes of illness, including specific infections, toxins, and emotional disturbances. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

Cost: \$150

**Autonomic Response Testing I**  
**March 21-22, 2009**

**Taught by Andreanna Rainville, RN, Hyatt Regency, Bellevue, WA**

This is a practical hands-on course, where you will learn to use muscle testing to diagnose food allergies, geopathic stress, biophysical stress and interference fields. Find and prioritize stressed organs and structures, emotional blocks, heavy metal toxicity and dental problems. Understand the seven factors of illness. Find the underlying cause of many chronic illnesses. Learn how to prioritize treatment protocols for any chronic or acute illness.

ART is different from other forms of muscle testing in that it uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body. ART often finds things that are missed with traditional kinesiology. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

Cost: \$450. Repeat Attendees: \$250

ART I is repeated on April 25-26 in New York City. Sign up for both classes and receive a \$200 discount (half price) on the second class. Sign up for ART I, ART II and ART III in 2009 for \$1100.

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until February 27, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web: <http://bellevue.hyatt.com/groupbooking/belle2009klin>.

**Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.**

**Family Constellation Seminar: Heart of Healing**  
**March 28-29, 2009**  
**Location: Westin Canal Street, New Orleans, LA**  
**Taught by Dietrich Klinghardt, MD, Ph.D.**  
**Sponsored by Kashi Rai, MD**

This workshop is both for health care practitioners, students, parents, patients and interested teenagers. This workshop is offered with the intent to create health.

Shortly after conception, the mother downloads much unresolved pain, conflict, traumatic experiences and unconscious longings into her unborn child through a process called, "imprinting." Later in childhood the unresolved issues from the father also appear in the field of the child. The imprint determines the physical and psychological development of the child and plays a large part in the tendency to suffer illnesses such as autism, learning disorders, immune dysfunction, inability to detoxify, seizure disorders and brain cancer. Later in life the "downloads" from both parents play an important role in the development of physical illness, psychological problems, ineffective life strategies, relationships, job and financial problems, in seemingly random occurring traumatic events, and more. The unresolved issues transferred into the field of the child can stem from the life of the parents or from ancestors much further back and can be unraveled, understood and healed with this work -- even generations later.

Dr. Klinghardt uses a modification of Bert Hellinger's family constellation approach. The client chooses from the audience representatives for their ancestors who are placed within the circle of participants in a specific order. Through a series of healing interventions memories, thoughts and feelings of the represented real people are brought to light. The circle and the specific groupings of representative function spontaneously and powerfully as a healing tool for the client and his/her family.

With this work the most destructive forces in the client's health, life and energy field can be removed. Medical interventions which previously were ineffective before suddenly work, fast, miraculously and often with laser-like accuracy.

**Three Seminars in 2009; March 28-29, August 22-23, Dec. 5-6**  
Cost: \$450.

## **Neural Therapy A: The Intensive & Neural Therapy B**

**Register for Neural Therapy A, Neural Therapy B or both!**

**Neural Therapy A: April 16-17 (ends at noon)**

**Neural Therapy B: April 17-19 (starts at 1 PM)**

**Hyatt Regency, Bellevue, WA**

**Neural Therapy A taught by Jeff Harris, ND**

**Neural Therapy B taught by Dietrich Klinghardt, MD, PH.D.**

### **Neural Therapy A**

The most comprehensive teaching in modern injection techniques using procaine, diluted medications and homeopathics. Most of the injections are superficial, safe, easy to learn, and can be used for a wide variety of medical problems: chronic pain, thyroid, and other hormonal issues, to enhance metabolic activity of both liver and kidney, non-surgical face lift, body sculpting and more. Learn scar treatments, segmental therapy, and trigger point therapy (IRR, Infraspinalus Respiratory Response).

Dr. Klinghardt says of Jeff Harris, ND: "Dr. Harris is one of the best neural therapists in the world." Dr. Harris practices in Seattle, WA and has been a neural therapist for over 15 years. He trains neural therapists all over the country and teaches neural therapy at Bastyr College in Seattle.

Cost: \$595

### **Neural Therapy B**

Advanced injection techniques and treatment of the autonomic ganglia. This course features the following techniques: deeper procaine injections, injections with other selected medications, prolotherapy / sclerotherapy, ART testing for injection site and appropriate medications. Non-invasive alternatives will be discussed and demonstrated for each technique. A discussion on a deeper understanding of the dental contribution to illness and Dr. Klinghardt's heavy metal detoxification program for the central nervous system will also be included.

Cost: \$695

Take both classes together for \$1000 (not included with other discounts).

Student Discount: \$250 for students who are not actively working in a practice.

Repeat Discount: \$100 off

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until March 26, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web:

<http://bellevue.hyatt.com/groupbooking/belle2009klin>.

***Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.***

**Autonomic Response Testing I**  
**April 25-26, 2009, New York City**  
**Taught by Andreanna Rainville, RN,**  
**Sponsored by Jeffrey Morrison, MD**

This is a practical hands-on course, where you will learn to use muscle testing to diagnose food allergies, geopathic stress, biophysical stress and interference fields. Find and prioritize stressed organs and structures, emotional blocks, heavy metal toxicity and dental problems. Understand the seven factors of illness. Find the underlying cause of many chronic illnesses. Learn how to prioritize treatment protocols for any chronic or acute illness.

ART is different from other forms of muscle testing in that it uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body. ART often finds things that are missed with traditional kinesiology. ART practitioners in general also have the ability to test for a wider variety of root causes of illness, including specific infections, toxins, and emotional disturbances. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

Cost: \$450. Repeat Attendees: \$250,

ART I is also given on March 21-22, 2009 in Seattle. Sign up for a repeat class and receive a \$200 discount (half price) on the second class. Sign up for ART I, ART II and ART III in 2009 for \$1100.

**Autonomic Response Testing II**  
**June 19-21, 2009**  
**Taught by Dietrich Klinghardt, MD, PH.D.**  
**Hyatt Regency, Bellevue, WA**

ART I introduced ways of diagnosing and treating the extra-cellular space: the ground system. In ART II we will introduce sound methods to diagnose and treat the intracellular environment. Learn how to use muscle testing to detect chronic viral, fungal, mycoplasmal infections, Lyme disease and other microorganisms. You will also learn treatment protocols for cancer, chronic fatigue, MS, FMS and other chronic diseases. Learn to use ART to select the most appropriate and best tolerated medication – including diagnostic and therapeutic protocols for toxic metals and xenobiotics.

Cost: \$650.

ART II is given on January 17-18, 2009 and on March 21-22, 2009. Sign up for a repeat class and receive a \$200 discount (half price) on the second class. Sign up for ART I, ART II and ART III in 2009 for \$1100.

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until May 28, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web: <http://bellevue.hyatt.com/groupbooking/belle2009klin>.

***Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.***

**ART I Refresher Course June 19 AM**  
**Taught by Andreanna Rainville, RN**

A refresher course will be taught on June 19th from 9am to 12pm covering the information from ART I. This is a hands-on course for the newcomer or the old timer who wants to brush up on their skills. If you have not taken ART I you must take this course in order to attend ART II. It is also strongly suggested that you order the ART I DVDs to view prior to the course.

The cost of the refresher course is \$200 and it will be held at the same location as the ART II seminar.

**Week-Long Retreat for Practitioners of ART, APN and Neural Therapy**  
**August 3-8, 2009, Northbend, WA (near Seattle)**  
**Taught by Dietrich Klinghardt, MD, PH.D. & Guest Faculty**  
**Limited to 25 Seasoned Practitioners**

***Space is already filling! Call to hold your place!***

This 6-day retreat is a time to experience and get a deeper understanding of Dr. Klinghardt's holistic method of true psycho-somatic medicine: the "5 Levels of Healing". In this workshop we will address all 5 levels. Neural therapy, Applied Psycho-Neurobiology, Heavy Metal Detoxification and Treatment of Chronic Infections will be included. This week-long retreat is limited to seasoned students of Dr. Klinghardt.

**Physical level:** ART evaluation of the "7 factors", ART II direct resonance and ART III testing on three levels, yin and yang states. Lectures on the appropriate use and interpretation of meaningful lab work and imaging techniques, dentistry, heavy metal detoxification, Lyme disease, true spirituality, energy body illnesses, and others.

**Electro-Magnetic level:** Neural Therapy A and B with all the new variations: microcurrent uses, laser and LED, sound and color therapy, geopathic and biophysical stress management, and more

**Mental level:** APN, mental field therapy (we'll have sessions clearing out old trauma and unresolved psycho-emotional conflicts), journaling, color therapy, co-counseling.

**4<sup>th</sup> level:** Family constellation work and APN II.

Tuition fee is \$1,500. This includes all presentations and course materials. Accommodations and meals not included. A \$750 deposit holds your place.

**Save on tuition!** Early Bird registration—save \$150 off tuition when you book by April 15th (must be paid in full to receive this discount.)

**Family Constellation Seminar: Heart of Healing  
4-Weekend Training for Health Care Professionals;  
the Public is Invited to Participate  
August 22-23, 2009, Hyatt Regency Bellevue**

This training is both for health care practitioners, students, parents, patients and interested teenagers. This workshop is offered with the intent to create health.

Shortly after conception, the mother downloads much unresolved pain, conflict, traumatic experiences and unconscious longings into her unborn child through a process called, "imprinting." Later in childhood the unresolved issues from the father also appear in the field of the child. The imprint determines the physical and psychological development of the child and plays a large part in the tendency to suffer illnesses such as autism, learning disorders, immune dysfunction, inability to detoxify, seizure disorders and brain cancer. Later in life the "downloads" from both parents play an important role in the development of physical illness, psychological problems, ineffective life strategies, relationships, job and financial problems, in seemingly random occurring traumatic events, and more. The unresolved issues transferred into the field of the child can stem from the life of the parents or from ancestors much further back and can be unraveled, understood and healed with this work -- even generations later.

Dr. Klinghardt uses a modification of Bert Hellinger's family constellation approach. The client chooses from the audience representatives for their ancestors who are placed within the circle of participants in a specific order. Through a series of healing interventions memories, thoughts and feelings of the represented real people are brought to light. The circle and the specific groupings of representative function spontaneously and powerfully as a healing tool for the client and his/her family.

With this work the most destructive forces in the client's health, life and energy field can be removed. Medical interventions which previously were ineffective before suddenly work, fast, miraculously and often with laser-like accuracy.

**Three Seminars in 2009; March 28-29 in New Orleans, August 22-23 in Seattle, Dec. 5-6 IN Boulder, CO**

Cost: \$450 per weekend.

**Autonomic Response Testing III**  
**August 28-30, 2009**  
**Taught by Dietrich Klinghardt, MD, Ph.D.**  
**Hyatt Regency, Bellevue, WA**

Dr. Klinghardt will reveal advanced techniques in bio-energetic testing using techniques that have been developed over the last four years at his private clinic and at his research Institute in Germany. The focus of this training is on the biophoton field and the detection of perturbances in the field, their meaning and the most effective and least invasive ways to correct them. The seminar will include the application of autonomic response testing (ART) in anti-aging medicine (biological hormonal and metabolic balancing), dentistry and orthopedics. Learn the most accurate diagnostic procedures for the jaw and teeth, and the latest advances in treating Lyme disease. Dr. Klinghardt will also venture into the more mystical areas of healing and teach how to successfully address deep-seated psychological and spiritual problems.

This is an advanced workshop and is strictly limited to those who have attended and mastered ART I and ART II.

ART I is given on January 17-18, 2009 and on March 21-22, 2009. Sign up for a repeat class and receive a \$200 discount (half price) on the second class. Sign up for ART I, ART II and ART III in 2009 for \$1100.

Cost: \$695

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until August 6, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web: <http://bellevue.hyatt.com/groupbooking/belle2009klin>.

**Lyme and other Chronic Illnesses**  
**October 9-11, 2009**  
**Taught by Dietrich Klinghardt, MD, Ph.D. & Guest Speakers**  
**Hyatt Regency, Bellevue, WA**

Lyme disease, chronic mycoplasma infections, herpes and other modern illnesses affect us in multiple ways and are often the cause of chronic fatigue, fibromyalgia and many other illnesses. Antibiotics have largely failed to address the issue. Mercury, cadmium and other metals have a synergistic effect with bacterial and mold neurotoxins.

In the last decade the majority of outcome-oriented physicians observed a major shift: we realized that it was neither the lack of vitamins or growth hormone that made our patients ill. We discovered that toxicity and chronic infections were most often at the core of the client's suffering. Microbiologist Gitte Jensen, PhD had shown, that the older we get, the more foreign DNA is attached to our own DNA. Somewhere along the line pathogenic microbes invade the host's DNA and become a permanent part of it. It may also cause a number of symptoms and chronic illness. It appears that many patients with MS, ALS, Parkinson's disease, autism, joint arthritis, chronic fatigue, sarcoidosis and even cancer are infected with *Borrelia burgdorferi*. But is the infection causing the illness or is it an opportunistic infection simply occurring in people weakened by other illnesses?

In this seminar we will focus on the solutions: What are the relevant diagnostic tests and strategies available to measure the body burden of toxins? Which detoxification strategies are safe, effective, reliable and affordable? What can we do to change and improve the future of our lives as we hope to live it?

**Conference fee: \$675. Register in full before July 1: \$575**

**Student Fee: \$425. More than one person from the same office: \$100 discount per person.**

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until September 17, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web: <http://bellevue.hyatt.com/groupbooking/belle2009klin>.

**Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.**

## **Advanced Energy Psychology Techniques (APN II)**

**October 23-25, 2009**

**Taught by Dietrich Klinghardt, MD, Ph.D.**

**For people who have taken MFT and PK**

**Hyatt Regency, Bellevue, WA**

Chronic health problems are often misunderstood. Clients frequently fail to respond to reasonable healing interventions because of a simple truth: the unsuccessful treatments were directed at the symptom, not the cause. The true entry point or impact of the illness-causing energetics occurs in a higher dimension and gradually trickles down to the emotional or physical realm.

In this exciting and practical workshop we will explore the most frequent hidden causes of chronic illness:

1. unresolved transgenerational ancestral trauma in the client's family
2. pain and conflict carried over from a past life
3. the effect deceased family members and friends can have on our health

During this weekend you will learn three simple, practical and yet powerful tools to diagnose and treat on the "4th level":

- Genogram development and its practical application
- Bert Hellinger's systemic psychology and constellation work
- Dr. Klinghardt's psychokinesiology and brief healing visualizations

By applying these simple methods magical healing is often possible where conventional and alternative methods have failed. We will explore specifics in the treatment of developmental childhood disorders (autism, seizures, dyslexia etc), cancer, chronic fatigue, MCS and chronic pain. There will be many demonstrations, time for hands-on practice and presentation of case studies.

Cost: \$595

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until October 1, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web:

<http://bellevue.hyatt.com/groupbooking/belle2009klin>.

***Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.***

**Family Constellation Seminar: Heart of Healing**  
**3-Weekend Training for Health Care Professionals;**  
**the Public is Invited to Participate**  
**December 5-6, 2009, Boulder, CO**

This training is both for health care practitioners, students, parents, patients and interested teenagers. This workshop is offered with the intent to create health.

Shortly after conception, the mother downloads much unresolved pain, conflict, traumatic experiences and unconscious longings into her unborn child through a process called, "imprinting." Later in childhood the unresolved issues from the father also appear in the field of the child. The imprint determines the physical and psychological development of the child and plays a large part in the tendency to suffer illnesses such as autism, learning disorders, immune dysfunction, inability to detoxify, seizure disorders and brain cancer. Later in life the "downloads" from both parents play an important role in the development of physical illness, psychological problems, ineffective life strategies, relationships, job and financial problems, in seemingly random occurring traumatic events, and more. The unresolved issues transferred into the field of the child can stem from the life of the parents or from ancestors much further back and can be unraveled, understood and healed with this work -- even generations later.

Dr. Klinghardt uses a modification of Bert Hellinger's family constellation approach. The client chooses from the audience representatives for their ancestors who are placed within the circle of participants in a specific order. Through a series of healing interventions memories, thoughts and feelings of the represented real people are brought to light. The circle and the specific groupings of representative function spontaneously and powerfully as a healing tool for the client and his/her family.

With this work the most destructive forces in the client's health, life and energy field can be removed. Medical interventions which previously were ineffective before suddenly work, fast, miraculously and often with laser-like accuracy.

**Three Seminars in 2009: March 28-29, August 22-23, Dec. 5-6**

Cost: \$450 per weekend.

**Matrix Therapy and Neural Therapy Without Needles**  
**December 11-13, 2009**  
**Taught by Dietrich Klinghardt, MD, PH.D.,**  
**Andreanna Rainville, RN and Nancy DiFuria, HC**  
**Hyatt Regency, Bellevue, WA**

What are practical solutions for all of us bombarded daily by chemicals, pesticides, heavy metals like mercury, other toxins, microbes, parasites, viruses, fungi and more? This weekend workshop will focus on the latest international advances in Energy Medicine, the physics of the body and specific devices that have the potential to accelerate healing. Some of these include:

- **Valkion:** a machine from Sweden that oxygenates our brains and the cells of the body in 15 minutes, increases energy in the body and eliminates unhealthy anaerobic bacteria
- **Microcurrent**, which reduces pain, rebalances the body and eliminates microbes and chronic infections by increasing immune system function
- **Cold Laser Therapy** for detoxification and balance
- **Toxaway Ionic Footbath** which increases detoxification through the feet from the kidneys, liver, and lymph system.

This method has evolved over the last 15 years in the clinical practice of Dr. Klinghardt. Klinghardt Matrix Therapy uses mostly microcurrent and infrared technology, color therapy and energy psychology to achieve microbial inhibition, lymph drainage, heavy metal detoxification and energetic and emotional balancing. KMT is a must in the treatment of Lyme disease, heavy metal detoxification and most other chronic illnesses. KMT can also be used for face and body lifting with astounding results. This procedure can be delegated to an assistant and is used today by many dentists and medical doctors throughout Europe.

Electromagnetic fields and microwave exposure from cell phone broadcasting (Electromagnetic Radiation or EMR) are often the underlying cause of chronic illness or ill health. The workshop will also cover solutions for issues of **Electrosmog**, which greatly disturbs brain function, immune system function and more.

Cost: \$550

A block of rooms has been reserved at a special reduced price under the name of **Klinghardt Academy of Neurobiology until November 10, 2009**. Call the Hyatt Regency at **(425) 462-1234** or on the web: <http://bellevue.hyatt.com/groupbooking/belle2009klin>.

***Make sure you mention Klinghardt Academy of Neurobiology to get your discounted room rate.***

**Healing the Brain 2010**  
**February 26-28, 2010**  
**Taught by Dietrich Klinghardt, MD, PH.D. & Guest Speakers**  
**Hyatt Regency, Bellevue, WA**

In this seminar, Dr. Klinghardt will present the symphony of non-invasive techniques used to keep our brains and the brains of our children healthy and highly intelligent. Also, practical treatment protocols for all major neurological diseases will be taught, including autism, Parkinson's disease, Alzheimer's disease, age-related neurological decline, Lyme disease, psychiatric disorders and more. Content includes: mold and electrosmog in the home; resveratrol and other herbs to deal with glycation and oxidation problems; the proper use of neural therapy, color therapy and autonomic response testing (ART); biological treatment of the prevailing infections: herpes viruses, Borna virus, mycoplasma, and Borrelia, heavy metals in the brain, and effective detoxification.

The incidence and severity of neurological illness has been on the rise - and our field of applied neurobiology has so much to offer! It is estimated that today only 1 in 4 children is neurologically and developmentally healthy and well by age 6 - an increase of several hundred percent in recent years. ALS, Parkinson, Alzheimer's disease, Autism and other disorders of the central nervous system are increasing exponentially. 1 in 54 children in the UK is now diagnosed with the full picture of autism, up from 1 in 10 000 only 15 years ago. Statistically speaking, we may not have any "normal" children in a few years. Something is happening. What is it? In this workshop we will explore the hidden causes of neurological illness and brain dysfunction in both children and adults and also carefully discuss available diagnostic and treatment options.

**Conference fee: \$695. Register in full before July 1: \$595**

**Student Fee: \$450. More than one person from the same office: \$100 discount per person.**

***To register or for questions, please contact Klinghardt Academy of Neurobiology,  
www.klinghardt.org, info@klinghardt.org***

**In 2009 Dr. Klinghardt will be speaking at the following seminars:**

**April 3-5**

**Bioenergetic Conference with in Phoenix, AZ**

**April 30, 2009**

**American College for Advancement in Medicine (ACAM)**

**Nutritional Aspects of Improving Detoxification and Drainage**

**San Diego, CA**

**June 25-28, 2009**

**27<sup>th</sup> Annual International Symposium on Man and His Environment**

**American Environmental Health Association**

**Dallas, TX**

**June 26-29**

**The Lyme-Autism Connection Conference**

**Phoenix, AZ**
